### FOOTBALL LEAGUE

Little Bow Valley League Formed By High River, Vulcan and Champion Teams

At a meeting held in Vulcan on Monday, July 23, a new league, to be known as the Little Bow Football League, was organized. Enthusiastic representatives from four clubs, Vulcan, Champion, High River Rangers and Royal Canadian Air Force, were present, and the preliminary work, which always confronts the organizers of such a league, was carried through without hitch.

League rules were drawn up and passed, and a schedule of league games was also arranged, so that the four clubs which are entered in the new league can now go ahead and play their league games. As the season is well advanced, only 12 games in all have been decided upon, three home and three away games for each club.

The following were elected to represent the various clubs at league meetings:

President, J. Miller, High River; Sec.-Treas., A. Carter, R.C.A.F., High River. Rep. L. King, Rangers, High River; W. Butchart, Vulcan, F.C.; W. J. Oliver, Champion, F.C.

It is sincerely hoped that the clubs entered in the new league will be given the practical support that they deserve, and that large numbers will turn out to see the games played.

#### League Schedule

July 25—Rangers vs. Vulcan.  
July 27—R.C.A.F. vs. Rangers.  
July 27—Champion vs. Vulcan.  
Aug. 1—Vulcan vs. R.C.A.F.  
Aug. 1—Champion vs. Rangers.  
Aug. 3—Rangers vs. R.C.A.F.  
Aug. 7—R.C.A.F. vs. Vulcan.  
Aug. 9—R.C.A.F. vs. Champion.  
Aug. 15—Champion vs. R.C.A.F.  
Aug. 15—Vulcan vs. Rangers.  
Aug. 17—Rangers vs. Champion.  
To be played on the ground of the first named club.

John Savary, aged 11 years, a son of Mr. Savary, barrister of Calgary, was killed on Saturday by being dragged to death by a runaway horse.

### VULCAN VICTORY

The Opening Game of the Little Bow League—Was Won By Vulcan Against the Rangers

On Wednesday evening Rangers were the hosts to Vulcan in a junior league game which Vulcan won by 2 goals to 0.

Rangers won the toss, and Greenco kicked off for Vulcan. The first half showed a great lack of combination and wild kicking on both sides owing, I believe, to stage fright. The game was fairly even throughout the first 30 minutes and the half time score of 0-0 was a fair indication of the run of the play.

The second half was much better football the boys settling down and were making a much better try for goals, Vulcan just having a slight edge on the play. Stewart and Davies defending well. Greenco scored the first goal resulting from a nice run by Vulcan forwards.

Rangers were having quite as much of the outfield play at this time as Vulcan but were not shooting as well. It's the shooting that counts and Vulcan were entitled to their 1 goal lead on that account alone.

McKay sent a nice cross and Arnold was making his way clear into goal when Davies pushed him off the ball, using his elbow for that purpose the resulting penalty kick was taken by Arnold who shot wide and thereby missing a great opportunity to equalize the score.

From a huge punt by Stewart Greenco got away and shot hard at Holtum who stopped the shot and did not get the ball away and Greenco running in scored his second goal. That finished the scoring and the game was called with the Rangers pressing hard.

The teams:

#### Vulcan

Collier; Davies and Stewart; Joe, H. Marcellas and Robinson; E. Marcellas, Brown, Greenco, Leitch and Kitto.

#### Rangers

Holtum; Guire and Betton; Cope, Gombly and King; McKay, F. Brown, R. Arnold, Garrett and Johnstone. Jack Miller, referee.

### SCHOOL SINGING

Board of Education Provides for Teaching Singing

The public school course provides for the teaching of singing, and the demand having been made for this training at the last annual school meeting, the school board has planned to meet the circumstances by employing Miss Marion Norton, who will teach the regular subjects in grades 4 and 5, and will give instruction in singing in grade 4, 5, 6 and 7. Miss Norton possesses a first class professional certificate and comes highly recommended as a teacher of singing. It is hoped and expected that the engagement will prove satisfactory to all concerned, and the addition of a talented musician to Vulcan will be welcomed.

"Hell!" cried the devil as he told his chauffeur to take him home.

The town of MacLeod is planning to observe the fiftieth anniversary of the coming of the Mounted Police to MacLeod in a befitting manner. They are inviting all members to send in their addresses.

It was William's wedding morn, but alas, he overslept himself. When he at last awoke he dressed and hurriedly hastened to the station to find his train had gone. There was not another for an hour. Frantically he hurried to the telegraph office and wired to the bride: "Detained. Don't marry till I come."

### NEW RINK

Council Accepts Plans and Proposition Proceeds

Architect Macdonald, of Calgary, at a special meeting of the town council on Monday night, presented the plans and specifications of the proposed new skating and curling rink, made and revised to comply with the local requirements, and were accepted by the council, every member of which is ambitious to secure for Vulcan the finest kind of a rink for the amount of money at their disposal for the purpose, and if the rink is as good as the plans indicate Vulcan will have a real asset and curlers and skaters and everybody will be pleased with their possession. A call will at once be made for tenders, and if all things go as anticipated, construction will be under way in a short time. When possible The Advocate will give dimensions and describe in detail the several features of the new rink.

### WIN AND LOSE

Vulcan Ball Team Takes Two Out of Three

Vulcan baseball team went to Carmangy the other day to play against Nanton. Their opponents were a composite bunch, and the game was calculated to give baseball entertainment to Carmangy, little of which they have had this season. But the size of the crowd present did not evidence much demand. The game was fair and somewhat interesting, the teams at times alternating in leading in the score, but the final was in favor of Vulcan.

The second game was a feature of Aldon picnic program, and was against Nanton. The game was keen and close, and interest was added by the fact that several wagers were made on the result. Rivalry was so intense that after the game had been time has lessened the nerve of the made to play for \$100, and Vulcan at once agreed. This, for some days, created more interest than the details of the game which had just been played, but our information is that time has lessened the nerve of the fellows who first made the bet, and at present there does not appear to be much of a prospect for any \$100 game. But our team merits credit for winning this strenuous contest.

We just can't win against Stavelly, and the last game played against that team is more evidence of the fact, and Vulcan must be content with the credit of giving them the hardest run of any team in the league, and that is some credit, for Stavelly is indeed a hard team to beat. On this occasion Vulcan suffered their worst defeat, the score being eight to one. Siler pitched for Vulcan, and though he had more strike-outs than his opponent his general support was not so good. Vulcan made a good start by scoring the first run in the first inning, Recor having the distinction of getting this one. This was the last league game with Stavelly.

### BOYS WARNED

Some Lively Lads Listen to Some Real Advice

On Thursday last, under instruction of the Provincial Department for Neglected and Delinquent Children, an investigation was held at the Police Court here of a case of "doing wilful damage to real property." It appeared that the damage consisted of mud throwing had been committed on the property of one of the Chinese restaurants, the Canada Cafe. The Inspector for the Department, Mr. Munro, had four boys, said to be implicated, at court. After investigation and two boys having admitted committing the offense, the Chinaman, Sam Fong, said that if the boys were warned against further annoying him he would not further proceed in the case. The Justice asked each boy to declare on his word of honor, that he would not molest the Chinaman again, and the boys having promised this, said the matter was closed for the present but warned them what might occur if the offense was repeated.

### LOCAL ITEMS

Mr. J. W. Scobbie came over from High River on Tuesday evening.

Decorating the window of The Advocate office is a bouquet of wheat, left with us by Mr. G. F. Armstrong. It is as high as a man's head, and is but a sample of more than 150 acres of a like kind now growing on his farm in the Lomond district. Throughout the country in the south there are many thousands of acres of just such crops, but particular interest attaches to the fact that this sample comes from the Lomond district, a section that perhaps does not always receive the credit that it merits.

Eric Armitage a young man of Calgary, was killed on Sunday evening when a car he was riding in with others turned turtle, killing the young man instantly.

### LOCAL ITEMS

Order your trees and shrubs from Roy Walker, Vulcan.

Mr. Dyce Allan and Mrs. Allan and family are holidaying at Sylvan Lake.

Postmaster Elves is back to business after a week or two of holidays at Medicine Hat and elsewhere.

Mrs. Russell Robson and little daughters are visiting at Taber, and Mr. Robson went as far as Lethbridge with them on their journey.

Mr. Wright and Mr. and Mrs. Maber spent the week-end in Calgary. Mrs. Maber went on to Sylvan Lake to spend two weeks with Mrs. Wright.

Mr. D. C. Jones was showing the newspaper man around his flower garden the other day. In it there is great variety and beauty. This garden should contribute entries to the flower show.

Vulcan Citizens' band has been engaged to furnish music at the Nanton exhibition and stampede, and if things are anything like last year, most of our citizens will go with the band to Nanton.

Among the Vulcan visitors to High River during the week were Mr. and Mrs. Howes and daughters, Mrs. Scobbie, Mrs. Harry Wilson, Mr. and Mrs. Jos. Loisele and family, and Mr. and Mrs. John Dewie and family.

Mr. Geo. W. Buck, who has been ill for some time, went to the hospital in Calgary on Monday, and has since undergone a surgical operation, the very successful result of which is a delight to his physician and a real satisfaction to himself and many friends.

The annual Masonic picnic, in connection with the Vulcan lodge, will be held this year at what is called locally the Big Bow bridge. This is always quite an event with the members of the fraternity. It was intended to hold this picnic in the park at High River, but this pretty spot has been so marred by the flood water that the change was necessary.

Baseball fans in Vulcan and in all towns of the Alberta Southern league will be interested in the venture of the Stavelly team. They will play Rockyford, in Rockyford, on Friday and Saturday, for the Brewery trophy. This is a challenge cup held by Rockyford, and to win it the challengers must defeat the cup holders of their own grounds in a total of two games. Vulcan is strong for Stavelly in this contest.

Vulcan Odd Fellows were invited to send one of their members to Nanton on Wednesday to act in the capacity of judge in the races and contests in connection with the I.O.O.F. annual picnic conducted jointly by the Nanton, Cayley and High River lodges. Vulcan will be forgiven for not being able to comply when it is stated that on the same day there was a U.F.A. convention at Vulcan, a baseball match with Claresholm, and the football team had to go to High River to play. Some busy day.

William Watt, who has for a long time been in the service of the town as constable and general town man, has tendered his resignation to the council, and same has been accepted, creating the necessity of securing another man, and the occasion will be made the opportunity for several changes in connection with this department of the municipal service. We understand that the town will now purchase a team and other equipment and introduce some new methods in the conduct of this branch of the town work.

Mr. B. D. Lockhart has made the announcement through the medium of The Advocate of his purchase of the stock and store until recently owned and operated by Mr. George Eamor, and already patrons of this place of business have been pleased with the service and quality of goods offered by the new proprietor. Mr. Lockhart will be welcomed as an addition to our business, and with Mrs. Lockhart and family will be gladly received as citizen of the town and may they lend a hand in maintaining the reputation of the town which induced them to locate here and may their venture be a real success.

There was a conference of U. F. A. members in Vulcan on Wednesday and the place had the appearance and activity of a convention city. Many of those in attendance made opportunity to call at The Advocate, some to pay the editor a compliment and others to register a kindly kick, both of which are appreciated as an evidence of the interest manifested in our weekly record of events. We will be pardoned for freely accepting the former and beg to admit frequent cause for the latter. Compliments and kicks, as they are usually conveyed to us, make a splendid combination for the encouragement of our efforts in behalf of the country districts as well as the town. Our patrons from the country, as well as those who are not, will be welcome at this office, and the desire is that you may call more frequently.

### LOCAL ITEMS

Mr. Frank Nicholson, of the local C.P.R. station staff, is at present employed as relieving agent at Ensign, and has been on the job a week or more.

Mr. and Mrs. Bob Simington and Mr. Lorne Leverington and Miss Bertha Maltz were member of a party that a week or two ago spent a week at Waterton Lakes.

Alteration and improvements are being made to the Dominion cafe, the new owners making preparations for the increased business they anticipate. Contractor Loisele is doing the work.

Dr. Barker is away for a short holiday, and in the meantime his dental parlors are being painted and decorated and the premises will be made suitable for his excellent equipment.

Mr. J. N. B. McDonald, proprietor of the Lacombe nurseries, was in town this week, and with Mr. Roy Walker, local representative, called at The Advocate and for a few minutes talked trees and things.

The position of caretaker of the public and high schools is now open, the duties of the new man to commence the first of September. An advt. in this paper will interest any who may desire the job.

Mr. Peter McIntyre, weed inspector, is our authority for the statement that many farmers are to be commended for their splendid efforts in the mended for their splendid efforts in the eradication of weeds, and special mention was made of the work of Mr. Gus Spanke in the connection.

The Advocate has had a message from "Dooley" Ober, our radio expert, dispatched from Waterton Lakes, where he is conducting an orchestra in connection with this pleasure resort. It was a wireless, coming by post card, on the reverse side of which was a picture which makes us desirous of taking a trip down to those lakes.

Mrs. J. A. McAlpine has written a cheerful note to The Advocate, with the request that the paper be sent to their new address at Moscow, Idaho, where the Eshom, also former Vulcan residents, are now located, and all are well and enjoy the change. The letter concludes: "We are just in cherry season and never saw so many before; the weather is very hot, with showers to make it comfortable, and crops are better than in years."

Vulcan Cadet Corps will be represented at the cadet camp at Morley. Those who will go into camp from here are Willie Butchart, Cliff Ogilvie, Tom Brooks, Wilfrid Daines, Bud Flood, Elmer Brown, Will Kiser and Charlie Kiser, and they will be under the command of the officers of the Claresholm corps. This will be a fine training and a great outing for the boys, and it is pity that more of the corps could not make it possible to go into camp.

The mention we made last week that flowers had so far this year been a scarcity with the editor, brought us four beautiful bouquets. There were roses and other flowers of variety, and for these we are indebted to Mr. D. Doane, Mrs. Howard Marcellus, Mrs. John Love and Mr. Roy Walker. The editor was not seeking bouquets for himself, although the same are fully appreciated, but particularly did we desire to create and maintain an interest in the coming flower show.

Mr. and Mrs. Sage and Mr. and Mrs. Earl Clark, with every preparation made for a great auto trip and good outing, left here one day last week and got as far as Pincher Creek. While in the tourist camp at that point, Mr. Sage was suddenly and severely stricken with illness, and as quickly as possible was the subject for a surgical operation, the cause being appendicitis. Though the operation was entirely successful, Mr. Sage will be required to remain in the hospital for some time, and the trip is off.

Martin's Papyrus, a paper trade journal, makes special mention of the generous and exceptional action of Vulcan business men and Advocate patrons which made possible the attendance of the editor at the newspaper convention in Halifax. We mention this to again have opportunity of expressing the appreciation of The Advocate man for what has commanded mention by different papers here and elsewhere. It is the Vulcan way, and the way we do things has made Vulcan widely and well known.

Roy Ferguson was telling us of the great time he had in the fine new swimming pool at Calgary, and of the hundreds and hundreds who daily disport themselves at this place. This revived the idea of a swimming pool Vulcan and The Advocate sought the favor of Mr. McDonald, architect, who was in town in connection with the new rink proposition, and he has as the figures on the approximate estimate cost of a cement basin that might fill local requirements, and these figures will be useful if in the future the subject comes up for consideration. Just now interest is keen on the new skating rink, and maybe one thing at a time is good enough.

# The "Right" Way

## There's No Better Method

of reaching the people than through the medium of the Classified Advt. Everybody reads them, for they are news to those who seek something and likewise news to those having something to sell. ## THE VULCAN ADVOCATE

### BUNDLE THEM UP

Judging from comments in Cape Breton papers the people of that country are heartily sick of Livingstone and MacLachlan, and who would like to see Canada transformed into a "Russia." While military interference is objectionable at all times, yet in view of wreaths made by MacLachlan of "to hell with the coal company's property," it was considered proper to have the military present as a safeguard. Personally we believe there would be no labor trouble in Cape Breton if MacLachlan, Livingstone and men of the "red" ilk were bundled off to Russia where they would be perfectly at home with their friends Lenin and Trotsky.

### BRIGHT CROP PROSPECT

The crop reports of the Canadian National and Canadian Pacific railways makes pleasant reading. From nearly all points on their lines in the prairie provinces the story is essentially the same, and tells of uniformly good stands of grain of all kinds, rapid growth, and freedom from blight.

The one adverse factor, reported from several localities, is the hail storm. That, of course, has to be looked for in a country of such vast extent. But, ruinous as it may be to the individual, and sometimes to a settlement, the hail storm is a local occurrence, and the aggregate loss from these disturbances will not cut any large margin off the total returns from the three provinces.

Over the whole prairie country the outlook is for a harvest that will make itself felt in the pockets of the farmer and the cash drawer of the merchant.

### THE SYDNEY STRIKE

The charter of the U.M.W.A. of Glace Bay was revoked on July 17 by the International President, John L. Lewis, for refusal of the officers to call off the strike after being so ordered. He referred to the action of Livingstone as a mad adventure that ruthlessly tramples upon every rule of conduct of the union, and that the deliberate breach of the existing contract between the operators and miners of Nova Scotia was indefensible and morally reprehensible. Further, Lewis says:

"I have in mind that you are a self-proclaimed revolutionist. I am familiar with the constant intrigue between yourself and your evil genius MacLachlan and your revolutionary masters in Moscow. I can recall the sentiments which you enunciated at a comparatively small meeting of the international executive board at Indianapolis, when, with the cold ferocity of a five-year-old defying its mother, you announced you were a believer in revolution by force. No doubt the present strike in Nova Scotia corresponds with your idea of a revolution against the British government and is in pursuance thereof."

### COAL CONFERENCE

The conference on coal rates from Alberta to Ontario was held the past week in Edmonton and was attended by C. A. Magrath, Chairman of the Canadian Fuel Board; Sir Henry Thornton, President of the C.N.R.; D. C. Coleman, Western Vice-president of the C.P.R.; Premier Greenfield, H. Stutchbury and A. Chard of the Provincial Government, and a number of operators and others. The question of a rate to Ontario markets that would put Alberta coal in the east on a competitive basis with the American product was discussed. An agreement was reached by the railway officials to give a special rate on a certain limited quantity for experimental purposes. An announcement will be made shortly in this connection by Premier Greenfield.

## EDITORIAL NOTES

Indianapolis Star: The average farmer is glad to welcome parties from the city and to tender the use of pasture land through which a stream may flow. He is justified in growing "hard boiled," however, if careless and indifferent visitors abuse his hospitality by littering up the place, leaving the gate open, breaking down fences and committing other acts of vandalism. The guilty belong to the type which regards the country as common property, stripping fruit trees of blossoms, stealing the ripened fruit and doing anything that apparently does not involve detection.

Lethbridge Herald: It is not often that the average farmer is in the habit of keeping books wherewith to ascertain if he is carrying on his operations at a profit or a loss. But a system of bookkeeping, even though it be crude, is just as essential on the farm as in business houses. In addition to its business aspect the practice will be valuable as a guide to the farmer as to how his farm is working out. But apart from the value and the necessity of bookkeeping on the farm there is another very important and advantageous reason why every farmer should keep books. This was clearly demonstrated in the bankruptcy chambers of the Supreme Court, held in the city this week by Mr. Justice Tweedie. On this particular occasion three farmers applied to be discharged as bankrupts under the Bankruptcy Act, as pointed out by the judge, no discharge can be obtained unless there has been payments of liabilities at 50 cents on the dollar. Cases for discharge where this has not been done are left to the discretion of the Judge in Chambers where the application is made. In the cases of the applications of the three farmers the judge was willing to grant the discharge asked for but was unable to do so for the simple reason that the farmers had not kept any books to show their standing. This the Act requires where discretion has to be applied. Farmers should take note of this, and for their own interests keep books, if for no other reasons at least for such occasions wherein the three applicants spoiled whatever chance they had for relief in being discharged from bankruptcy through the fatal omission of not having kept books.

Alliston Herald: The refusal of Hon. R. H. Grant, minister of education, to sign the prescribed agreement with the U.F.O., which would place him under virtual obligation to resign his seat in the legislature at the demand of the U.F.O. executive in his constituency, constitutes an example worthy of emulation by all political candidates who place any value on their integrity and trustworthiness. The reason is that a sitting member represents all the electors of his constituency, and not merely a certain proportion of them—that he is not a mere delegate, but a representative in the larger sense, and should be conceded liberty of action. He, being at the scene of action, is far better able to judge as to the practicability of proposed legislation than are his constituents who may be hundreds of miles away and out of touch with current events. If he fails to give satisfaction the electors can punish him by refusing him reelection.

Lethbridge Herald: The talk of an embargo on pulpwood is making the U.S. rub its eyes and the New York World proposes that the Washington government get busy and remove some of the Fordney-McCumber tariff obstacles which prevent Canada trading with the United States.

The pulpwood embargo may prove to be the forerunner of reciprocity. Uncle Sam wants our pulpwood amongst other Canadian products, and the Canadian farmer wants to sell his products in the United States market. Now would be a good time for the governments of both countries to get together and do some negotiating. Mr. Fielding paved the way when he said the Ottawa government was still anxious for reciprocity.

Prediction that American tourist travel in Western Canada this summer will break all records was made by Canadian Pacific Railway officials. With the summer season barely launched hundreds of visitors to the Dominion already are pouring over the border bound for Rocky Mountain resorts, it was declared.

While educational facilities are in a deplorable state in certain rural municipalities, large centres like Calgary and Edmonton already provided with educational facilities should not be demanding plants for higher education. The need for common school education in the rural districts is more important than the extension of facilities for advanced education in the cities. It is said that while it cost \$580 per pupil to educate students in the university, only \$8.50 per pupil was spent for the education of children in the public schools.

The head of a great university in the United States is alarmed over the "disquieting phenomenon of the outbreak of intolerance." Among some examples are the attempts to state by legislation what people shall eat, drink and wear. South Carolina passed a bill prohibiting the playing of billiards last spring; Utah has an anti-cigarette law for a year and a half; in Nebraska the sale of tobacco is regulated by law; a tie in Arizona saved that state from local option in tobacco; Pennsylvania has passed a bill prohibiting any municipality from adopting daylight saving; in Connecticut timepieces put forward are subject to confiscation; a number of statutes have proposed limiting the height of heels on women's shoes; Los Angeles outlaws the wearing of whiskers by a municipal ordinance; Indiana defined the size of sheets to be furnished guests in hotels—and so on.

TODAY'S CHAPTER IN THE BIBLE

1 By the rivers of Babylon, there we sat down, yea, we wept, when we remembered Zion.  
2 We hanged our harps upon the willows in the midst thereof.  
3 How shall we sing, the Lord's song in a strange land?  
4 If I forget thee, O Jerusalem, let my right hand forget her cunning.  
5 If I do not remember thee, let my tongue cleave to the roof of my mouth; if I prefer not Jerusalem above my chief joy.  
6 Remember, O Lord, the children of Edom in the day of Jerusalem; who said, Rase it, rase it, even to the foundation thereof.  
7 O daughter of Babylon, who art to be destroyed; happy shall he be, that rewardeth thee as thou hast served us.  
8 Happy shall he be, that taketh and dasheth thy little ones against the stones.

It is announced that Sir James Craig, premier of Ulster, contemplates resigning.

The cutting of rye is in progress in the southern part of the province. This crop will be rather lighter this year than last, but there are some heavy stands in some fields.

The total trade of Canada in May touched the high point of \$160,314,526, an increase of approximately \$24,734,000 over that for the same month last year. Both imports and exports showed increases, imports being \$18,143,000 greater and exports \$5,590,000 greater than during the preceding May. Both as respects imports and exports it was the biggest May during the last three years.

And Then She Turned Pale  
The dairymaid pensively milked the goat  
And, pouting, she paused to mutter,  
"I wish, you brute, you'd turn to milk!"  
And the animal turned to butter.

## The Only Remedy Says This Doctor

"The treatment of skin diseases (eczema) and diseases of the scalp is known to be difficult," writes Dr. W. L. Randolph. "However, there is one remedy that is known to be entirely dependable in this distressing and troublesome disease. I refer to D. D. D. Prescription."

If you have never tried D. D. D. for skin diseases, whether a small spot, or whether one of the dreaded forms—the torment of eczema or the hard scales of psoriasis—get a bottle at once on our guarantee that if it doesn't relieve you your money will be refunded. \$1.00 a bottle. Try D. D. D. Soap, too.

Exhibition Entries close July 24th. For Prize List and other information  
apply to  
R. W. GARDNER, Secretary,  
LETHBRIDGE.

It is estimated that the wool clip of Southern Alberta camps this year will total 850,000 lbs. Some of it has been disposed of at 34 cents.

The jury hearing the evidence in the Delorme case is Montreal failed to agree on a verdict and a second case must be gone on with.

## VISITORS TO PROVINCE

Among the visitors to the government buildings during the past week were Charles Wright, Honorary Secretary of the British Passenger Agents' association who is gathering information for the benefit of tourist and settlers from the old country, and Mr. Weymouth, Editor of "Farm Life," published in Indiana, who is collecting material for articles on various branches of the farming industry in Western Canada.

The first cutting of Alfalfa on the irrigated area east of the city is well under way. It is expected to be the largest alfalfa crop ever harvested in Southern Alberta. The area this year is somewhat in excess of 10,000 acres, or about 1,500 acres more than last year. The average yield per acre on the first cutting will be in the neighborhood of two tons, so that there will be about 20,000 tons of new hay after this cutting.

## IS LOST TO CANADA

The disastrous effect of a forest policy which compels the lumber industry to migrate from place to place is to be found not only in the forest itself and on the farm, but also, in the larger towns. Throughout Eastern Canada there are many towns once growing and prosperous, but now declining and discouraged because the saw-mill, or other wood-using establishment, has gone out of business through the failure of forest supplies. They are in the condition which the commercial traveller so aptly designates as "dead."

The older men of my readers will at once recall illustrations of what I mean, but for the benefit of the younger men let me give one example. Forty years ago the town had a population of 1,300. Then came a sawmill, or at least the old mill was rejuvenated and enlarged. In 10 years the town had a population of 3,000 and in another decade it had reached 3,800. From this point the output of the mill declined and about 15 years ago the work became spasmodic and finally mill went out of business because the river valley above had been logged out. The population decreased with the declining fortunes of the mill until now the town has less people than it had 40 years ago. Stores and shops have been abandoned; whole streets have vacant, tumble-down houses. Discouragement and despair are written everywhere in that village—in the faces of its people as well as in the condition of its streets.

This town, like many others, is the victim of an administrative policy on the part of the government which regards a forest only as so many trees to be cut and not as a restorable resource capable of producing crops indefinitely when properly treated. The river valley had and still has forest soil enough to support three such towns as the above at the time of its best development, under intelligent just and conscious effort to keep the forest continuously productive.

## NOTHING DONE

The harvest season is but a few weeks away, and with wheat selling at below \$1.00, the farmers are apprehensive as to what the price will be when a great wave of grain begins sweeping towards Winnipeg.

Nothing short of an unheard of calamity can prevent Western Canada from harvesting a tremendous crop of wheat. Men who know expect the total to reach half a billion bushels. All this grain has to be harvested, threshed and marketed in a scant period covering a few months.

Will the price sag to a low figure or will the world demand be sufficiently strong to maintain a good price for the grain?

The development of the 1923 crop has been watched closely by the importing nations, and it is a fact that the glowing reports emanating from the prairies have been a strong factor in the bullish markets.

President Wood, of the U. F. A. claims that it is the regular autumnal glut at Winnipeg and the Twin Cities of Port Arthur and Fort William, that depresses the prices. He says if the disposal of the grain was spread over a year fair prices would be obtainable. Anyway, the Alberta and Saskatchewan premiers were unable to establish a wheat board and it looks as though the farmers will be at the mercy of the wolves again this year.

The lesson may be sufficiently severe that the hands of the farmers' leaders will be forced to do something definite next year.

## USE FOR TAR SANDS

Great interest has attached to the experiments being carried on during the past week at the Edmonton Exhibition to establish the feasibility of the tar sands from McMurray for road making purposes. At the exhibition grounds a strip of pavement was laid, the raw tar sands being used for the purpose just as they were taken from the ground. A crushed gravel base was laid, and on top of this a mixture of from 50 to 75 per cent. crushed gravel, with the heated tar sands was rolled on. In a few minutes the pavement was hard enough to walk on, and appeared to make a very satisfactory road. Another set of experiments is being carried on at the university. In these experiments the tar is being extracted from the tar sands, and then mixed with different classes of road material. The object of this is to establish the feasibility of successfully extracting the tar from the sands, which would eliminate the necessity of paying freight on the sand from McMurray. Both experiments appear to be successful, but some further time will be required to establish their permanent success.

If the experiments prove that the tar sands can be used successfully for road making, the cost of road pavement in the province will be greatly reduced. The officials of the Provincial Government, as well as of the cities of the province are watching the results with considerable interest as it concerns the development of one of Alberta's best resources.

The annual conference of the department of neglected children and mothers' allowances will be held in Lethbridge on July 23, 24 and 25, when several prominent speakers will be present.

## INTERILLED CROP

Summerfallow is a necessity at an early stage of the development of agriculture in any country. It was practised in the Eastern United States and in Eastern Canada more than a hundred years ago, but is not used much in those parts now. Later it was in vogue in the Central State, but is being superseded by methods more intensive and more remunerative; and for more than 40 years it has been a common practice in the Western States and more especially in Western Canada.

Summerfallow is co-existent with the stage of one-crop farming, and one-crop farming can last as a system only as long as the material in the soil can furnish food for such a crop. In the older parts of the continent this stage has been replaced by the introduction of livestock, the returning of manure to the land and the growing of intertilled crops, more particularly the growing of corn. In many of the older parts of the Canadian west where farming has consisted chiefly of summerfallowing and wheat growing the returns in recent years, in many cases, do not give the operator sufficient income to meet expenses and the land is subject to blowing in dry seasons. The natural recourse is to introduce intertilled crops, livestock and grasses.

Intertilled crops such as corn, turnips and sun-flowers have been grown at the experimental station at Rothamsted for 13 years. These crops have always been grown in rotation with grains and grasses and the land given an application of manure immediately before the intertilled crop. Land worked under such a rotation became cleared of weeds, did not drift in dry seasons and yielded more grain per acre than land on which the rotation was grain alone.

Intertilled crops alone, or grasses alone, will not solve the problems of soil-depletion, soil-drifting and weeds; but both of these in conjunction with livestock and the return of the manure to the land mean a permanent agriculture.

The one great feature in growing intertilled crops which is more important perhaps than any other is care in preventing the growth of weeds. If the crop is not kept free of weeds the yield is lowered and one great end, the cleaning of the land, is defeated.

## ITEMS OF INTEREST

Prof. D. Killam of Alberta University was drowned at Yarmouth, N.S. while out swimming.

The department of agriculture will commence prosecution shortly of those produce merchants who have not applied for or taken out licenses under the provisions of The Produce Merchants' Act.

Up to the end of May this year about 65,000 acres of free grant homestead lands had been filed on at the Dominion land office here. Figures for 1922 show that 1,598 homesteads were filed on in the Edmonton recording area, involving 255,680 acres.

Fifteen more creameries have been put in operation in Alberta this year than were in operation in 1922, according to a report issued by the Provincial Department of Agriculture. There are now 69 of these, in place of 54 last season. In addition there are in operation throughout the province 13 cheese factories.

Immigration to Canada for the month of May, 1923, totalled 17,767, an increase of 59 per cent. over the same month in 1922. Of the newcomers 10,971 were from the British Isles, 2,149 from the United States and 4,647 from other countries. Since the beginning of the year 49,907 new citizens have been added to Canada's population, the months showing increases of 6, 51, 22, 44 and 59 per cent. respectively over those of 1922.

Not once this season has it been necessary for the Dominion forestry headquarters in Calgary to call on the High River air station for a patrol over southern forest reserves. No fires have been reported south of the Brazeau this year. There were only some 30 fires reported in all. These were all in the northern country and started during the early dry spell that hit that part of the province. They were all small fires, the largest of them costing only \$700 to extinguish.

Short courses for school fair winners were held from July 9 to 14, at the agricultural schools at Olds and Claresholm. These short courses were started last year for the boy and girl winners in each school fair district, and the plan was enlarged this year to courses at both Olds and Claresholm. The course at Olds this year included the school fair centres of Olds and Gleichen and the winners in 32 school fair districts attached to these centres participated in the course. At Claresholm the winners in 31 school fair districts participated. At Olds there were 105 students and at Claresholm 62 students. The boys and girls enjoyed the courses exceedingly. The courses covered lectures and demonstrations in horticulture, field crops, livestock, carpentry and domestic science. Proper provision for recreation was made, and evening entertainments included motion pictures provided by the department of agriculture, which were both instructive and entertaining. Another course will be held during the week of July 23.

## By-Law No. 28

Under the provisions of The Domestic Animals Act (Municipalities), Section Twenty-two, Sub-Section Three, the Council of the Municipal District of Marquis, No. 157, have located the following Pounds and appointed the following Poundkeepers:

## Admired Hair Is Shampooed This Way

### Hair that gleams with life and color

Women admired and envied for their richly beautiful hair know this secret. Hair specialists agree that it beautifies hair.

Olive oil for the shampoo!  
It has been used since history began. For its gentle cleansing action removes all dirt and oil from scalp and hair. Dandruff is dissolved and washed away. And the bright sheen of life and color is greatly increased. It leaves hair fluffy—never dry or brittle. It leaves hair silky and pliant as a baby's—

with the inimitable gloss so much desired. Thousands of women now regularly treat their hair this beneficial way. They use PALMOLIVE SHAMPOO—olive oil in its most perfect form for the shampoo. Easy to use. And very economical.

You can get full-sized bottles at your dealer's. Or, by mailing coupon, you may have a 15c trial bottle free. Get some at once. Use it. See the results that follow even one shampoo.

THE PALMOLIVE COMPANY OF CANADA, Limited  
Montreal, Que. Toronto, Ont. Winnipeg, Man.

## Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It meant hard work, but today they are independent.

### Money in Mixed Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 99c as against the Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

### Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

### Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

### We Must Cut Production Costs

Canada is meeting with the keenest competition in the marketing of her products. To hold her own and regain her place on the world's market, she must reduce cost of production.

The only way to do this is to increase production per acre, per cow or per other unit.

But improved quality, also, is essential to meet market demands.

The quantity and the quality of the products and the cost of production in competitive countries is beyond our control.

Prices of agricultural products are regulated by world supply and demand.

Hence, decreasing production will not help the Canadian farmer.

### Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

There is a market for good Canadian horses, whether light or draught.

### Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

### The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

## Have Faith in Canada

Authorized for publication by the  
Dominion Department of Agriculture  
W. R. MOTHERWELL, Minister.  
Dr. J. H. GRISDALE, Deputy Minister.

## BINDERS and TWINE

Shortage of Binders for the Big Crop.

If you don't place your orders early, look your old Binders over and give us a chance to give you the Service you are entitled to by getting your Repairs Early.

See the No. 5-A Binders before placing your orders elsewhere.

## McINTYRE & CO.

## Rex

### LOCAL CREAM STATION

The Rex has been established as the Vulcan Agency for the Campbell Griffin Company, Calgary, and all Cream delivered by Farmers and others will be properly cared for and will be shipped without cost or trouble to the producers. Correct refrigeration and careful handling maintains the grade of good Cream. Returned cans may be had at any time of day at The Rex.

### FRUITS

Fresh Fruits of Quality and Every Variety in Season.

Terms Cash.

F. M. GRAHAM, Sheriff.

## BRANT NEWS

Mr. and Mrs. Geo. Bateman were Vulcan visitors Saturday afternoon.

Mrs. Louise Jackson and daughter Nettie, were Vulcan visitors Saturday last.

Mr. and Mrs. Jesse Kelly are spending a few days at Waterton Lakes.

Miss Hanna Shridler, of Barons, is visiting at the home of Mr. and Mrs. H. S. Parker.

Misses Marie and Gudrun Holthen have as their guest Miss Irison of Victoria, B. C.

Quite a number of the Brant young folks attended the dance held in Ensign Friday last.

Next to the road hog, the worst animal in a car is the man who won't dim his light.

Bad news and bad eggs have one thing in common. They should be broken gently.

Mr. and Mrs. Prater have been quite ill with the 'flu but are better at the present writing.

Miss Pauline Mills is spending her holidays at Gull Lake, the guest of Mrs. J. Faucett.

Mr. and Mrs. C. Betchel and son Ralph, also Mrs. L. J. St. Clair, motored to Vulcan Saturday last.

The ladies' aid are holding a sale of home cooked foods and home-made candies on Saturday, July 28.

The monthly meeting of the U.F.A. was held at the home of Mrs. Ahos Christofferson on Saturday, July 21.

The people of this district who were suffering with the summer flu, are all reported much improved at this writing.

Kenneth Hood, of Central High school, Calgary, is spending his summer holidays assisting R. B. Mills on his farm.

Mr. and Mrs. Jess Kelly and Miss Beth Holden left for Waterton Lakes last night, where they will be gone a fortnight.

Mr. Wm. Eswick, of Fernie, B. C., was a business visitor in Brant Friday in regards to having his hotel re-fitted and re-painted.

George Bateman had the misfortune, or fortune, to loose the crop on his east place by hail. We understand he was heavily insured.

Mr. and Mrs. Frank Leach and daughter Jennie, also Mr. and Mrs. D. Burwash, were Friday evening callers at the home of Mr. and Mrs. W. E. Shultz.

Mr. and Mrs. Chas. Horsefield and small son, also Mr. Horsefield's sister and little daughter, of Calgary, were visiting in the Brant district last week-end.

Mrs. Mary Bateman is slowly convalescing at the home of her daughters, Mrs. C. Mitten. Mrs. Bateman was the guest of Mrs. T. Margetts last Thursday.

William Law, of Calgary, is spending his summer holidays with Mr. Robt. Parker on the farm, his brother, Grant, is spending his holidays at the N. P. Larsen home.

Have you young cattle, or pigs for sale; have you implements on the farm you do not require? If so, advertise the same, in the classified columns of The Times. Only costs 50 cents first insertion or three insertions for \$1.00.

The U.F.W.A. met at the home of Mrs. D. McDonald on Saturday afternoon last with a goodly number of women present. Miss Auld, graduate of the Clarendon college, gave an interesting talk on the school and its work there and told the ladies a simple way of making a fireless cooker and of its practical use these hot days, and ended her talk by giving three choice receipts for salad. Mrs. W. Shultz gave a demonstration on the art of making angel food cake which was surely appreciated by all, as Mrs. Shultz is noted for her delicious angel food cakes and the one she made Saturday was up to standard. Come again, ladies.

## SUNSET VALLEY NEWS

The weather man was very considerate in giving such a glorious day on June 15 for the Sunset Valley Junior U.F.A. to hold their sports day; being the first one of its kind the children were all very much excited but it proved a great success.

The events of the afternoon commenced by the members of the local forming in a group and giving the junior yell with a great deal of vim and enthusiasm.

Mr. A. H. Tharle, one of the supervisors, then spoke a few words on the growth of the local in which he stated that the local formed on the third of August, 1922, with a membership of ten, now has a roll call of 47.

The big events were as follows: 100-yd. dash, 16 and under—1, Kenneth Martin; 2, Willie Arrison; 3, George Irvine.

100-yd. dash, open—1, James Wynnt; 2, Frank Wynnt.

50-yd. dash, 12 and under—1, Willie Arrison; 2, Eric Guy; 3, Harry Meehan.

25-yd. dash, 10 and under—1, Geo. Christie; 2, Frank McQueenly; 3, Harry Meehan.

Potato race, 16 and under—1, Geo. Irvine; 2, Elizabeth Goldthorpe; 3, Eric Guy.

Potato race, 10 and under—1, Bill Campbell; 2, Harry Meehan; 3, Richard Arrison.

Potato race, open—1, James Wynnt; 2, Ted Adams.

Egg race, 1 and under—1, George Irvine; 2, Elizabeth Goldthorpe.

Egg race, 12 and under—1, Arthur Tharle; 2, Myrtle Meehan; 3, Harriet Goldthorpe.

Sack race—1, Elizabeth Goldthorpe; 2, Willie Arrison; 3, Hirst Goldthorpe.

Tug of war, boys, Howard Tharle's team; girls, Margaret Meehan's team.

A very exciting game of baseball was played between the Fatties and the Huskies. The lineup was as follows:

Fatties—Arthur Tharle, Ruby Fitzpatrick, Doris Irvine, Alice Tharle, Willie Arrison, Johnny Christie, Eric Guy, Margaret Tharle, Howard Tharle, Harry Washburn.

Huskies—Frank McQueenly, Herbert Willowby, Marjorie Irving, Neal Washburn, George Irving, Margaret Meehan, Elizabeth Goldthorpe, Myrtle Meehan, Kenneth Martin, Helen McInenly.

The score was 11 to 12 in favor of the Fatties.

A very enjoyable lunch was then partaken off. The local wishes to take this opportunity to thank the ladies and gentlemen of this community for their generous assistance in making this event such a great success.

## MAYVIEW NEWS

The Mayview U.F.A. met on June 6 with a good number of members and several visitors present. Some interesting matters of business were brought forward and discussed. Mrs. R. Hay gave an interesting and instructive paper on "how the U.F.A. can co-operate with the school," for which she was given a very hearty vote of thanks. Next meeting, August 3. Everybody welcome.

Mr. and Mrs. Phillips and little daughter, (Highland) spent Sunday at Mrs. Burr's. Mr. Don Spear was also a Sunday visitor at Mr. Burr's.

Miss Riley, Calgary, is spending her holidays with Mrs. LaChapelle.

Master Walter Sinclair spent a few days last week with Master Reggie Stein.

Mr. and Mrs. Smith and family were Sunday visitors with Mr. and Mrs. Peterson, Radcross.

The members of the Mayview U. F. A. journeyed to the Carlsland bridge on Friday, July 20, where they held a very successful picnic. The day was ideal and everyone was in picnic humor. The lunch was all that could

be desired and everyone did full justice to it. There was also ice cream and lemonade in abundance. During the afternoon the intake was visited which proved quite a pleasure in itself. Bathing was a favorite past time. It was a day long to be remembered. Prizes were awarded to the following: Boys' 50-yard handicap, first, Lee Richardson; second, Reggie Stein; third, Dalton Shaw. Girls' handicap, first, Claudia Crick; second, Viola Stager; third, Loma Richardson. Ladies' race, first Mrs. Shaw; second Mrs. Smith; third, Miss Riley. Men's race, first, Mr. Smith; second, Mr. Lloyd Richardson; third, Mr. Leslie Richardson. Boys' running broad jump, first, Lee Richardson; second, Reggie Stein; 3rd, Dalton Shaw. Boys' standing jump, first, Lee Richardson; second, Reggie Stein; third, Dalton Shaw. Men's hop, step and jump, first, Mr. Smith; second, Mr. Stein; third, Mr. Leslie Richardson. Men's standing jump, first, Mr. Leslie Richardson; second, Mr. Stein; third, Mr. Smith. Girls' potato race, first, Claudia Crick; second, Melba Stein; third, Phillis Smith. Little Girls' race, first, Jeanette Smith; second, Phillis Smith; third, Melba Stein. There was also an exciting game of horse shoes, Mr. Crick and Mr. Smith proving to be the champions.

Mr. and Mrs. LaChapelle and Miss Riley were Sunday visitors at Mr. Burr's.

Mr. and Mrs. Goldthorpe, Buffalo Hills, spent Sunday with Mr. and Mrs. Smith.

Mr. and Mrs. O'Neil were Sunday visitors at Mr. McKenzie's, Berry Water.

Mr. and Mrs. G. House and Miss Emily, also Mr. and Mrs. McMillan and Miss Dorothy Noble, called on Mrs. Burr one day last week.

Mr. Smith had the misfortune to lose a valuable mare last week.

Master Reggie Stein is spending a few days at the home of his uncle, Mr. Donald Sinclair, near Vulcan. Several hail adjusters have visited the district during the past week.

## LETHBRIDGE FAIR

Crop prospect in the south country are excellent this year and the outlook for the exhibition to be held at Lethbridge on July 31, August 1 and 2 is very promising, the indications being that it will exceed all past records in the way of exhibits and attendance. At least half a dozen U. F. A. locals will compete for the handsome prize offered for collective exhibits of grain, grasses, vegetables and fruit which will make a splendid demonstration of the productivity of the irrigation district. All parts of the province will be represented in the livestock show. An excellent program of races for the three days has been published and interest in the meeting, particularly in connection with the Lethbridge Derby to be run on August 2, is growing intensely. Free platform attractions will be provided daily by the Calgary Kiltie Kiddies, and the Lethbridge Kiltie band or the City Military band will provide music every afternoon.

## ITEMS OF INTEREST

Members of the provincial highways commission will tour southern portions of the province the coming week to locate definitely routes for certain main highways.

The Clarendon Review reports the near drowning of a young boy while attending a Methodist Sunday school picnic last week. The prompt action of Frank Murray, who jumped into the stream and rescued the youth, is commended.

Inspector Brankley of the A.P.P. after a trip through the Olds, Hanna, Youngstown, Oyen, Bassano and Glenclen districts, reports crops along the route as in splendid condition. Grain all heading out and an abundance of grass with horses grazing in luxuriant grass, and stock looking sleek and fat. The only sign of hail was between Glenclen and Bassano.

The value of the airplane in fighting forest fires is emphasized in the report of the air board covering the year 1922, which states that "thousands of square miles of timber have been saved by the use of the airplane." During the past season 76 fires were spotted by commercial aircraft and put out either by the crews themselves or by a party from the base which had been notified by the aircraft.

For the past two weeks the weather has been ideal for all general purposes and for the growing and maturing of crops especially. Short showers have fallen occasionally which has laid the dust and smoothed out the roads and trails and benefitted the crops. Hot weather has been the rule, and on some days oppressively so, but such has also been of benefit to the fields. The come-back of the crops apparently destroyed by the hail storm of about three weeks ago is something wonderful and where fields looked devastated at that time they are today looking very promising. Many farmers on these lands will get a large amount of green feed and some are predicting that they will yet get one-third of a crop of oats. Feed will be plentiful and sufficient to feed many times the head of cattle in the country. The south country as a whole, will evidently go out this year with the largest crop ever harvested and this prediction is reported to be true in all other parts of the province. It should be a prosperous year for all.

## "DAWN"

Dawn stands at the portals of day, A flush of pleasure on her cheek. Waiting to catch the sun's first ray— A bridegroom coming, her to seek. With red lips breaking into smiles And longing look within her eyes, She slowly passing time beguiles With song of soft and sweet surprise. Light o'er the hills doth gently creep, Tinging her gay locks with gold; On her fair cheek the red grows deep At last! There comes her lover bold. Beaming upon her form so trim, Smiling upon her upturned face. She stretches out glad hands to him And enters to his warm embrace.

Then his great joy-light fills the sky, As kisses he his dainty bride; Choir of earth's voices sound on high, As through the door of day they glide.

It is announced that Sir James Craig, premier of Ulster, contemplates resigning.

## LOST

COAT—Girl's Coat with fur collar, on the road somewhere between Vulcan and High River. Finder is requested to return same or send information of recovery to The Advocate, Vulcan, or The Times, High River. Jul25tc
